SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, ACL has submitted the following proposed collection of information to OMB for review and clearance. ACL is requesting approval to collect data for the National Center on Law and Elder Rights-Resource Support and User Satisfaction [OMB# 0985-0060]. ACL contracts with a national legal assistance resource center, the National Center on Law and Elder Rights, to provide the required services. Through the contract, ACL provides aging, disability, and related legal professionals with training, technical assistance, complex case consultations and support for demonstration projects regarding contractually identified priority legal topics. The purpose of the information requested is for ACL to ensure that the resource center creates and prioritizes the training, case consultations and technical assistance resources it was contracted to provide and to ensure that the center targets the contractually designated aging network practitioners about the priority subject matters.

This approach enables ACL to make data-informed decisions about the deployment of its resource center assets. These data are necessary for ACL to evaluate contractual compliance with established performance indicators.

These metrics include quantifiable increases in uptake by stakeholders of training, case consultation and technical assistance, and measures of satisfaction with and perceived benefit from these services. For example, the metrics measure successful problem resolution as a result of the services provided and quantifiable data on fulfillment of requests for training, technical assistance, and consultation related to the contractually designated legal and systems development topic areas. The information requested by ACL from legal and aging/disability professionals falls into the following areas: (1) requests for training, case consultation, and technical assistance; (2) general requests for legal training (including the volume of webinar registrations), and case consultations.
